Tony Puopolo 622 Sheppard Ave., Pickering, Ontario L1V 1G3

FEEDER

All wood construction, with 1/4" fibreglass dowels on sides to ensure feed is not soiled. Removable, easy to clean flat top.

Large:	48" long x 6" wide x 8" high	\$40
Medium:	36" long x 6" wide x 8" high	\$30
Small:	23" long x 6" wide x 8" long	\$20

NEST FRONT

High quality pine nest front that measures: 24" x 12" high.

One quarter inch fibreglass dowels spaced close enough to use for any breed of pigeon.

Exterior quality plywood door is 6 1/4" wide x 8" high.

Available in left, right or center door.

Great value at \$10 each.

(Inquire about the cost of your custom size nest front).

BLACK WIDOW BASKET

Quality from top to bottom. Maximum ventilation is offered with fibreglass dowels on the top and the use of lightweight, strong nylon mesh covering.

White pine frame with a flip-top loading door on the top and a drop down door using marine turn-buttons, on the front to release the birds.

Wood trim on top and bottom as well as a fold down carrying handle.

Available as a collapsible or non-collapsible basket. The collapsible baskets may be made non-collapsible by inserting 4 screws.

Large: 20 bird size is 30" x 16" x 9" high. **\$50**

Medium: 15 bird size is 23" x 16" x 9" high. **\$40**

Small: 6-8 bird size is 18" x 16" x 9" high. **\$30**

Note: (Small Basket is non-collapsible and does not have a drop-down release door).

END RELEASE BASKET

Are you finding that catching your young birds for training has become a real chore? Well here is a great solution that will help you get on the road without all the hassle.

Train the young birds from the very beginning to enter the baskets themselves by putting their daily feed ration in one of these baskets. The END RELEASE BASKET has a sliding door on each end and once the birds know that their feed is in the basket, all one does is line the baskets up, end to end. When one basket is full of birds, drop the doors on the full one, install a door on the next basket and when it is full, drop the end door. Easily you can line up as many as six at a time. With a little bit of renovation to your loft, it is possible to create an opening from the YB section, so the baskets can be lined up on the loft exterior.

These quality baskets have a flip top door should you want to load birds or remove one from the top. Great ventilation due to the doveled top and the mesh material on the sides.

Large: 20 bird size is 30" x 16" x 9" high. **\$65**
Medium: 15 bird size is 23" x 16" x 9" high. **\$55**

PERCHES & OTHER STUFF

V-Perches project 6" from the wall and is 10 1/2" across. The part that the bird perches on is a full 2" wide. Protects birds sitting below, and are strong, durable, and easy to clean.

As a time-saver, these are arranged in groups of 4. The back board is 48" long x 1 1/2" wide. The perches are spaced about 12" apart. Each perch is secured with two screws and the back board is pre-drilled for your installation.

Individual V-Perch: **\$2.50**
Set of 4 with backboard: **\$12.00**
